

# GAMING CHORE + REWARD CHART

## HOW TO USE THIS CHART

Level up your kids' chores with rewards that allow them to keep gaming (while still getting stuff done at home). For every row of common household chores completed, they'll get the dollar amount listed to save up and use for the virtual in-game currency of their choice. Cross out each one as it's completed to keep track. Check out the conversion rates at the bottom for a handy guide on real-world cost versus in-game dollars.

*Have your own list of chores you'd like to fill in? Check out our customizable Gaming Chore + Reward Chart on the next page.*

 Vacuum/Dust	 Reading	 Help cook	 Clean room	 Clean dishes			
 Help with laundry	 Help with outside chores	 Help set/clear the table	 Take out trash	 Vacuum/Dust

# GAMING CHORE + REWARD CHART

## HOW TO USE THIS CHART

Level up your kids' chores with rewards that allow them to keep gaming (while still getting stuff done at home). Fill in a common household chore in each box of the chart below. For every row of common household chores completed, they'll get the dollar amount listed to save up and use for the virtual in-game currency of their choice. Cross out each one as it's completed to keep track. Check out the conversion rates at the bottom for a handy guide on real-world cost versus in-game dollars.
